

# Discussion: Week 10

- **Please address the following topic for Discussion 10:**
  - What aspects of the course did you enjoy most and why? Were their songs or ideas you encountered that have inspired you in your own creative pursuits or helped you understand popular music and culture better? Do you think some of the ideas we discussed in class could be applied to your own field of study, even if your field is outside of music and the arts (e.g. science, engineering, business, etc)? How so?
- **To earn full credit for this assignment, your post must be about 4-7 sentences long. You don't need to respond to another student's post.**
