MUS 6: Electronic Music

Section Lecture 8

Wednesday, December 2, 2020

Lecture Outline

1. Announcements

2. Homework 4 *(Part 1: Wavetable and Audio Effect Rack)*

Announcements

- **Homework Assignment #4 is DUE by Wednesday, [Dec 16](#) at 11:59 pm**

Homework 4
(Part 1: Wavetable and Audio Effect Rack)

# Homework 4: Lecture schedule

- **Today:**

  - Wavetable
  - Audio Effect Rack

- **Next week:**
  - EQ
  - Grooves
  - Vocoder

Homework 4: Wavetable

- Go to Instruments -> Wavetable

- Wavetable is a synthesizer that allows you to make sounds using a **mixture** of basic waveforms. It also has a unique matrix feature that opens up several possibilities for modulating your sound.

Homework 4: Audio Effect Rack

- Go to Audio Effects -> Audio Effect Rack

- Audio Effect Rack is a user interface that allows you to organize and manipulate several audio effects at once using macros and chains.

Homework 4: Ableton Live implementation

- We'll use Wavetable and Audio Effect Rack to modify our cover of *Stranger Things* from Lecture 6. An audio clip of the modified cover is included on the section website.

- Below are the effects I used:
  - Chorus
  - Auto Filter
  - Delay
  - Grain Delay
